## PREFACE

This second volume of the index to the 1840 federal census for the State of Illinois was taken from National Archives microfilm rolls M704-58 through M704-61.

Every effort was made to copy the names as accurately as possible but the spelling and penmanship of the various county enumerators ranged from very good to very bad. As a result there are, no doubt, some names that are incorrect. As noted in the Preface to Volume I, it would have been unwise to have attempted to correct the spelling as such an attempt might have compounded the error. It would have been equally unwise to have speculated on the intentions of the enumerators. In some instances a name could have been interpreted two or more ways. Therefore, anyone using this index is urged to check for all possible spellings of a name and to go by sound as well as spelling as many names probably were written as they sounded to the enumerators.

Several forms of "Senior" and "Junior" were used. In this index all are shown as "Sr." and "Jr."

There were peculiarities noted in several counties:

EDGAR COUNTY - Due to ink splotches on Page 116 it was impossible to read the initials or given name of several individuals, however, the surnames have been included in this index.

EDWARDS COUNTY - Among the names listed on Pages 121-125 there were 58 names that had been duplicated somewhere within those pages. For example, Asa Pixley appeared on Page 121 and again on Page 124. Both listings were obviously for the same person as the household statistics were identical. Occasionally there was a variation in the spelling of a duplicated name but the statistics indicated they were one and the same person. As an example, one name appeared as Doris Rigley on Page 121 and as Doris Grigley on Page 124. Rather than chance an omission of an individual, all names listed on Pages 121-125 have been included in this index even though it is almost a certainty some are duplications.

FULTON COUNTY - Numbers on Pages 230-286 were imprinted incorrectly, putting them out of sequence with preceding page numbers (e.g. Page 230 was imprinted 330, 231 imprinted 331, etc.). Correct page numbers, in order to be in sequence, had been written in by hand and these are the page numbers used in this index.

GALLATIN COUNTY - The bottom parts of Pages 2 and 5 were torn off and thus not reproduced on the microfilm. It appears as though the missing parts of the two pages had contained 6 or 7 names (Page 2) and 3 or 4 names (Page 5).

GREENE COUNTY - On Pages 75 and 87 the left hand side was not reproduced clearly on the microfilm. This compiler cannot be certain all initials or given names on these two pages were copied correctly. In some instances they could not be read at all.

HAMILTON COUNTY - On Pages 154 and 155 the left hand side was not reproduced clearly on the microfilm. Again, this compiler cannot be certain all initials or given names on these two pages were copied correctly.

HANCOCK COUNTY - Pages 166 and 167, at the top of which had been written "Hardin County", were mixed in with Hancock County on the microfilm. The 62 names on these two sheets have been shown in this index as residing in Hardin County, however, they actually may have been residents of Hancock County as the numbered sheets preceding and following 166 and 167 were for residents of Hancock County.

HARDIN COUNTY - See note on Hancock County.

JEFFERSON COUNTY - In some instances a "t" was not crossed, making it difficult to distinguish between "t" and "l". Also, from this compiler's own knowledge some of the surnames were spelled incorrectly, however, they have been copied as written by the enumerator.

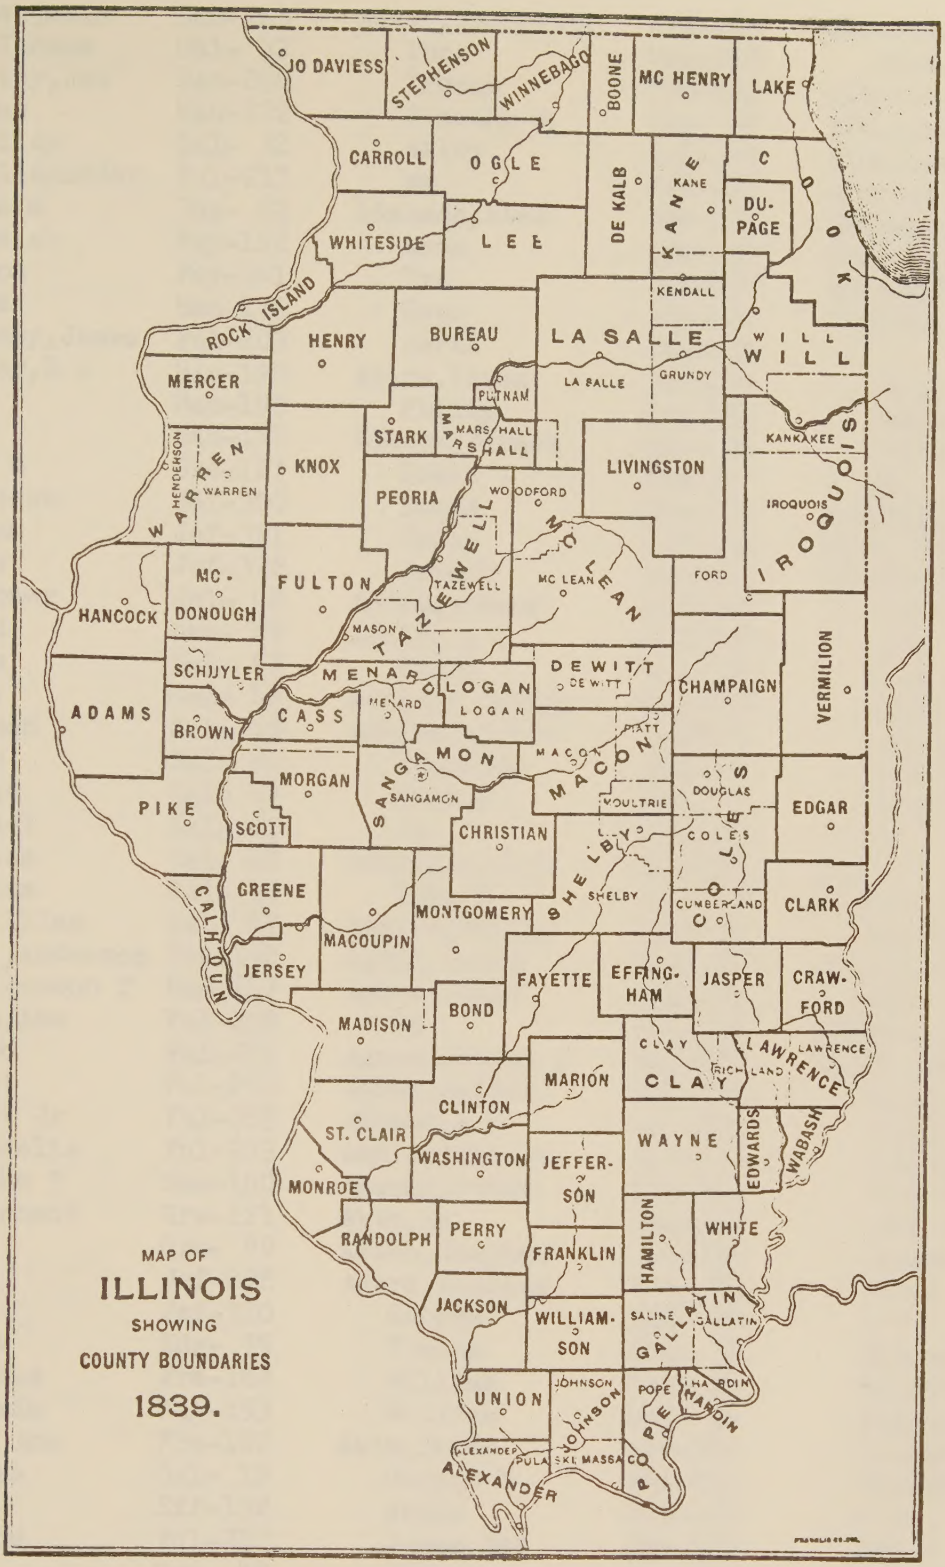
The format of this index includes the head of the household followed by the county of residence and the census page number where the name was found. County abbreviations used in this volume:

| | |
|---|---|
| Edg - Edgar | Ham - Hamilton |
| Edw - Edwards | Han - Hancock |
| Eff - Effingham | Har - Hardin |
| Fay - Fayette | Hen - Henry |
| Fra - Franklin | Iro - Iroquois |
| Ful - Fulton | Jac - Jackson |
| Gal - Gallatin | Jas - Jasper |
| Gre - Greene | Jef - Jefferson |

Alphabetically, the counties of Ford, Grundy and Henderson would fall within the above group, however, they were not formed until 1859, 1841 and 1841 respectively. Anyone searching for persons who may have lived in 1840 in the areas comprising these three present-day counties should check the parent county or counties (see map on Page v).

Information for each household not included in this index but available on the microfilm includes:

1) Age statistics for household members - white.
2) Age statistics for free colored persons and slaves.
3) Number of persons in each household employed in mining, agriculture, commerce, manufacturing and trades, navigation of oceans, canals, lakes and rivers, learned professions and engineers.
4) Pensioners for Revolutionary or military service and their ages.
5) Age statistics for deaf, dumb, blind or insane white persons and whether public or private charges.
6) Age statistics for deaf, dumb, clind or insane colored persons and whether public or private charges.
7) Information on persons attending school.



No counties were formed during 1840. The above map is from Counties of Illinois, Their Origin and Evolution, Secretary of State's Office, Springfield, Illinois.
